SIGNUX CXM10

M10 four-contact extension lead, male to female

SX-CXM10

DESCRIPTION

It goes into a line already built to take it further.

Each wire runs from a contact to the same contact at the far end. Both connectors are keyed, so they go in one way only and there is no way to cross them.

FEATURES

- Male on one end: Body of 34 × Ø 10 mm.
- Female on the other: Body of 33 × Ø 9.5 mm and a Ø 14 mm cap.

AT A GLANCE

Connectors	M10 male and M10 female, 4 contacts
Wires	4 × 22 AWG
Length	2 m
